INTRODUCTION

This publication reports the average rates paid by Kansas farmers and ranchers for custom work performed on their operation in 2006. A special thanks to the 1,239 farmers and ranchers, custom operators, co-ops, and elevators for their response to this survey. Our appreciation also goes to the Cooperative Extension Service's county agricultural agents who reviewed the questionnaire.

The data in this book provide additional information to custom operators, farmers, and ranchers for making decisions about rate charges. The prices reported here should not be regarded as official or established rates. The average figures in this book give equal weight to all reports received.

The prices in this book include charges for machines, power, fuel, and the operator. These prices do not include the costs of chemicals, seeds, and other materials. The one exception is hay baling materials. Exchange work between farmers is not considered custom work.

There are large variations in the rates charged for specific jobs. For many items, the State averages may not be typical of any particular locale. There are many reasons for price differences. Some farmers may charge lower prices to neighbors, relatives, or close friends. Soil conditions and field sizes are also significant factors. Rates are often lower in western Kansas where the larger farms are well suited to extensive operation with heavy equipment.

The average custom rates charged in 2006 are generally similar to those reported in 2005. Of the over 130 custom work items or machinery rentals in this report, 88 increased in price, 8 were unchanged, and 36 decreased in price. The report contains historical tables and graphs which show the results of previous surveys.

In the past year, we have received many comments about the Custom Rates report from the agricultural community. We appreciate this feedback and encourage readers to continue sharing their ideas and suggestions regarding this survey.

GRAIN HARVESTING

WHEAT: Custom rates for harvesting wheat averaged \$15.78 per acre with, in most cases, an additional average charge of 14.9 cents per bushel for yields greater than 21 bushels per acre. The per acre rate is up 54 cents from 2005. Some respondents reported a flat rate per bushel harvesting charge, but there were too few reports to publish the data.

GRAIN HARVESTING (Continued)

GRAIN SORGHUM: Custom rates charged for harvesting of grain sorghum averaged \$16.64 per acre, an increase of \$0.13 per acre from last year. Additional charges averaged 14.8 cents per bushel for yields over 36 bushels per acre. Some respondents reported a flat rate per bushel harvesting charge, but there were too few reports to publish the data.

SOYBEANS: The charge to custom harvest soybeans increased by \$0.40 per acre from 2005 for an average per acre cost of \$21.88 for 2006. Some operators added an extra charge averaging 17.2 cents per bushel for yields over 27 bushels per acre. Some respondents reported a flat rate per bushel harvesting charge, but there were too few reports to publish the data.

SEED CLEANING

Wheat seed cleaning with treatment averaged 114 cents per bushel, up from 98 cents the previous year. Rates for cleaning wheat without treatment averaged 51 cents per bushel, compared to 48 cents in 2005. The average cost for cleaning soybeans with treatment was \$1.07 per bushel, a decrease of 6 cents from the year earlier. The average cost of cleaning soybeans without any treatment was 47 cents, down 8 cents from the 2005 average.

GRAIN HAULING

The average custom rate charged for hauling wheat, grain sorghum, corn, and soybeans from the field to the farm or to the nearest elevator was 14.1 cents per bushel with an extra charge of 0.9 cent per bushel per mile over 15 miles. This compares with the 2005 average of 13.8 cents per bushel plus 1.2 cent per bushel per mile over 15 miles. Only reports which included both a mileage limit and a per mile charge for additional miles were tabulated in the over basic mileage column.

SILAGE OPERATIONS

Custom rates for silage operations were separated into four categories: 1) chopping, hauling, and filling the silo, 2) chopping and hauling, 3) chopping only, and 4) hauling only. The average rate per ton for the complete silage operation was \$6.93 per ton, up from \$6.71 from the 2005 average. Operations which included only chopping and hauling averaged \$5.79, which was up 20 cents from 2005. Chopping averaged \$4.03, compared to \$3.76 the previous year, and hauling only averaged \$2.22 per ton, up 10 cents from the year earlier.

PLANTING

Regular-Till

Small grain seeding charges averaged \$8.52 per acre, an increase of 35 cents per acre. Charges for planting grain sorghum increased 48 cents per acre to \$9.65 in 2006. The average price charged for planting corn was \$10.30 per acre, compared to \$9.69 per acre in 2005. Soybean planting charges averaged \$10.33 per acre in 2006, which is an increase of 57 cents from the year earlier. The grass seeding rate decreased 1 cent per acre to \$11.44 per acre in 2006. The price for seeding alfalfa-legumes averaged \$10.79 per acre, compared to \$10.52 in 2005.

PLANTING (Continued)

Minimum-Till

Rates for minimum-till planting of small grains averaged \$11.77 per acre, up from \$11.45 in 2005. Minimum-till grain sorghum planting averaged \$11.26, up 32 cents from last year's rate. Corn planting averaged \$11.57 per acre, a 46 cent increase. Soybean planting averaged \$12.00 per acre, compared to last year's average of \$11.75 per acre.

CHEMICAL APPLICATIONS

The custom rates for chemical applications presented here include the cost of machine, power, and the operator; however, the cost of the chemicals is excluded. Rates charged for crop cultivation with fertilizer application averaged \$7.60 per acre, while cultivation without fertilizer application averaged \$7.09. This compares with \$7.59 and \$7.05 per acre, respectively, in 2005.

FEED PREPARATION

Rates for custom feed preparations are those generally charged by grain elevators and feed mills. Rates charged in 2006 were very close to those reported in 2005. Reports averaged 38 cents per hundredweight (cwt.) for grinding grain, 37 cents per cwt. for rolling grain, 55 cents per cwt. for grinding hay, 28 cents per cwt. for mixing, 58 cents per cwt. for rolling and mixing, and 61 cents per cwt. for grinding and mixing.

FEED DELIVERY

There are many different methods of charging for bulk feed deliveries. Rates for four of the most commonly reported methods are presented below. Method 1 has a charge per load plus a charge per mile. Other types of charges were reported but could not be summarized for this report due to an insufficient number of reports. Many operators also charged extra for miles beyond a specified limit. For all methods, the average extra charge was \$1.42 per mile after 18 miles.

MACHINERY RENTAL

Rental costs listed below do not include the cost of fuel or labor for self-propelled equipment and tractors. Fertilizer applicators were the most commonly reported rental items, followed by tractors, combines, and planting equipment. Many items, such as cultivators, chisels, and mower/conditioners, were reported but had too few reports to summarize.

Rental charges are similar to those reported in recent years. Average rental costs for most items show increases or decreases due to the varied demand and increasing costs of implements. Some of the variation may be due to the small number of reports for some rental items.

Machine Rental Rates, 2006

Machine or Tool	Method of Charge	Number of Reports	Range	Average
Combine	\$/Hour	25	55.00-150.00	113.74
Corn Head	\$/Acre	4	5.00-10.00	7.13
No-Till Drill	\$/Acre	7	4.00-8.00	6.14
Drill Seeder	\$/Acre	4	4.00-12.00	8.63
Field Cultivator	\$/Acre	3	2.00-7.00	5.33
Fertilizer Applicators				
Dry	\$/Ton	17	6.00-10.00	8.53
Dry	\$/Acre	14	0.50-15.00	2.98
Anhydrous	\$/Ton	3	7.00-11.00	9.67
Anhydrous	\$/Acre	10	1.00-4.50	2.39
Dual	\$/Acre	3	2.25-3.50	2.83
Liquid	\$/Acre	<u>1</u>		
Hay Equipment				
Baler, Large Bales	\$/Bale	6	3.00-8.00	4.77
Tub Grinder	\$/Hour	3	40.00-90.00	63.33
Rake	\$/Acre	4	1.00-2.00	1.75
Tractor				
51-100 HP	\$/Hour	<u>1</u>		
101-150 HP	\$/Hour	<u>7</u>	15.00-65.00	27.14
151-200 HP	\$/Hour	4	15.00-40.00	24.75
201+ HP	\$/Hour	12	8.00-85.00	36.60
Size Not Specified	\$/Hour	7	17.00-40.00	26.14
Skid Loader	\$/Hour	3	25.00-60.00	46.67
